

Using Remind to Collect School Funds

REMIND IS A FREE MESSAGING APP that helps educators, students, and parents communicate quickly and efficiently. By connecting school communities, Remind makes it easy for everyone to succeed together.

Coordinating activities on Remind

Teachers can use Remind to organize activities like:

Money collection built for schools

When you receive a request to deposit funds into your school bank account, it takes just three steps to link the account to Remind.

- 1 Click on the **Get started** button in your email. This will take you directly to Remind.
- 2 Create a Remind account using the same **email address** where you received the request. If you already have an account, just log in!
- 3 Enter your bank account information. **This data is protected by Stripe**, a third-party service with bank-level security.

That's it! To manage your bank account or send fast, simple messages to others in your school community, just log back in to your account at Remind.com.

Along with sending invitations and tracking RSVPs, Remind provides a simple way to collect money online. Once the school treasurer links a bank account on Remind, teachers can deposit funds right into the account—without seeing confidential information or handling cash and checks.

Questions? Need help setting up your account?

Please feel free to contact the Support team at Remind. We're always here to help!
